

Parents of Incoming Kindergarteners

The Bledsoe Elementary Administration and teaching staff are committed to supporting each student reach his or her full potential during their six years here at Bledsoe.

Planning the ideal learning environment for each child is not a task that the administration and teaching staff at Bledsoe take lightly. When developing class lists, we closely consider the social, emotional and academic needs of all students. Careful consideration is made when reflecting on the characteristics of their former teacher/s and future teachers' strengths and qualities as an educator.

If you are interested in providing additional insight about your child, and the qualities a teacher would need to possess to best meet your child's needs, please complete the Google form below by Friday, May 12th. It may be tempting, but please refrain from making specific teacher requests as we are driven by creating well balanced classes where all students will succeed.

Thank you for your continued trust and support.
