

Infosnap Information

Students who are currently enrolled will receive the Infosnap email sometime between May 1-5, 2017 asking parents to complete the registration for the 17-18 school year. Only the primary contact will receive the Infosnap email. Parents can make changes to their contact information for NEXT YEAR and choose their intentions for next year (i.e. moving within the district, leaving Frisco, or attending {new school they are zoned for}). Parents who have contact, email, phone number changes for THIS YEAR should complete a change form (found online or in the front office).

Families who have moved or are planning to move this year CANNOT make changes in Infosnap. These changes can only be made through our office. Parents will need to submit a new proof of residence to us to change their address. A gas, water, or electric bill is required. However, in the case of a recent move, the school can accept a contract or lease until a bill is received. As a reminder, having the most current address on file is important as it determines which school the student is zoned to attend.

Please complete the Infosnap registration no later than June 2, 2017.
