

Visiting Sparks Elementary

All visitors must sign-in at the front office through our Raptor Visitor Management System. When signing in visitors must present their Driver's License so that we may scan it into our Raptor system. Adult guests without a Driver's License must present a government issued form of identification.

In order to protect the learning environment of our students, guests should refrain from entering classrooms or pods unless they have a pre-arranged appointment made through the teacher or front office staff.

The playground and recess areas are reserved for Sparks students only during the school day. Younger siblings are not allowed to play on the equipment with their siblings during the school day. Parents may not be on the playground interacting with other students unless they are serving as a scheduled volunteer and have cleared a criminal background check.
