Bio & Education

I have always been interested in art for as long as I can remember. My childhood was consumed with learning how to draw whenever I had free time. I graduated from Wilson High in 1980 and Kutztown University of PA in 1985 with a BS degree in Art Education. I taught elementary art for two years, middle school art for four and high school Art for ten years. Most of my teaching experience has been in PA in the Nazareth School District. I also spent five years as a professional graphic designer.
