Bio & Education

I graduated from Odessa High School in '05. Upon graduating, I moved to Richardson and began my college education at the University of Texas at Dallas. The degree I received from UTD was in the field in which I am most passionate: Physics. It is interesting for me to be able to use mathematical formulas and tools to explain the way everything in the universe functions. This will be my first year at Independence.

Course(s) Taught

Physics

Tutorials

Tuesday 8:15 – 8:50, 4:15 – 4:50

Wednesday 8:15 – 8:50, 4:15 – 4:50

All other days are by appointment, before and after school.

Activities/Hobbies

I designed and built my own gaming computer. When I have time, I like to play many different types of computer games.

I also regularly (sometimes every week) host or meet friends to play board games and hang out.
