Bio & Education

B.S. Biology – University of Oregon – 2000

M.A.T. Science Education – University of Texas at Dallas – 2011

I moved to Texas from Oregon upon graduating college in 2000. While working in the emergency room as an EMT I learned that I was passionate about education, mostly through various activities that allowed me to work with kids with cancer, diabetes, and asthma. So, I began my teaching career in Richardson teaching 7th and 8th grade science. Now 2014, I find myself with ten years of teaching experience and in my third year at Frisco HS.

Course Taught

A1: Earth & Space – Room C201

A2: Earth & Space – Room C201

A3: Environmental – Room W202a

A4: Common Planning

B1: Conference

 Tuesdays: 4:15 – 5:00 Room W202a

 Wednesdays: 4:15 – 5:00 Room W202a

 Thursdays : 8:15 – 9:50 Room W202a

Activities/Hobbies

My husband and I live in Sanger and enjoy racing motorcycles on the weekends. When I am not racing my dirt bike, I am usually training for a different kind of racing: either triathlon or marathon.

Other hobbies and interests include fly fishing, playing classical piano, scuba diving, my dog – Mango, beach volleyball, Big Bang Theory, and, and, and...
