## 2- THE FRISCO A&M CLUB SCHOLARSHIP

Howdy Future Aggie,

The Frisco A&M Club offers a \$1,000 scholarship to a new "Fish" each year from Frisco ISD. If funds are available the club will fund additional semesters as long as the student is in good standing with the university.

Applications must be e-mailed by the last day in February. **Our deadline is February 28th.** Applicants will then be notified to set up an interview to aid in determining the scholarship recipient.

Please make sure your e-mail is accurate and include the best phone number where we can reach you to set up an interview time. Interviews will be the first week in April.

Word Application: [Scholarship Application](#)

Please email the completed application to [FAMC@aggienetwork.com](mailto:FAMC@aggienetwork.com).

Good Luck and Gig'em!

Meg Magruder '94

The scholarship is independent and not part of FEF, and presented at our annual Aggie Muster event in April.

# COLLEGE INFORMATION, VISITS AND SUMMER PROGRAMS

## 1 – SFA SHOWCASE SATURDAY IS HERE! - SATURDAY 23<sup>RD</sup>.

Whether you have never been to campus before or just want a good excuse to come back, please join us on **Saturday, February 23<sup>rd</sup>** & March 30, 2019 at SFA.

Look at all the amazing things you will be able to do:

1. Tour the beautiful SFA Campus
2. Check out the different residences halls and see where you will be living
3. Speak with faculty and staff who work within your major
4. Get questions answered about Financial Aid and Housing
5. Talk with Admissions and even complete your Application.
6. ....and much more!

We hope to see you there. Check in starts around 12:00 and the event runs until 5:00pm. You can register online at: <https://graphite.sfasu.edu/showcase-registration/>

There's a reason we don't call it an "open house." Showcase Saturday isn't your typical college visit. Sure, you'll get to see the SFA campus and take a tour of our residence halls. But depending on the time of year you attend Showcase Saturday, you'll get to do much more than that. Check out SFA's performing arts scene or cheer on the Lumberjacks or Ladyjacks at one of our many sporting events, from football games in the fall to basketball in the spring.

Come experience student life first hand.

## **2 – PROJECT FASHION AND GAME EXPERIENCE – SUMMER CAMP**

Are you a student who is interested in fashion or STEM camps focused on game design?

I work with Project Fashion and Game Experience, summer camps that give creative-minded students an opportunity to explore a career through classes taught by industry professionals, hands-on projects, and company tours. Both camps create an environment where students can discover what role suits them best and whether they truly want to explore their chosen field as a career before committing time and money to the pursuit after high school.

A lot of students are concerned about whether they can be successful doing what they love, whether it's artistic, technical, or even business-oriented. That's why we want to show students and their parents that they're both multi-faceted, rapidly growing industries with roles and opportunities they may not know about yet.

For additional information please take a look through our websites.

#### know

Awaken you to deeper truths discovered through the art of storytelling.

#### live

Develop your craft through connection with others in an immersive experience.

#### tell

Learn to engage your audience through exceptional story telling technique in an environment of collaboration.

Students often tell us that while learning technical skills in a traditional education environment, they still feel ill-equipped.

Traditional education models tend to offer courses focused on story composition and technical skills with little to no training on how stories can engineer experiences, create personal change and evoke transformation within communities.

At Prodigy Cinema School, we offer education, apprenticeship and training in a completely re-imagined format for education.

Over 6 weeks, in a course designed for a non-traditional learning environment, students will:

- **LEARN** the fundamentals of story form and structure while deepening an understanding of how your family of origin shaped your own story.
- **SET FOOT** on real working film sets, set alongside professional editors, and be introduced to writers, directors, and producers that will immerse you in the storytelling experience.
- **CREATE** your own cinema projects, in collaboration with your fellow students, that will be observed and evaluated by our Industry Masters.

---

**OUR INDUSTRY MASTERS** have 20+ years in the film industry working with brands and artists such as ESPN, Carrie Underwood, Justin Bieber, Taylor Swift, Verizon, Mazda, and Canon (just to name a few). Their gifted storytelling has generated millions of dollars in profits, they have been nominated for Academy Awards, and become cornerstones of our culture. Come and join them and be a part of the next generation of STORYTELLERS!

Greetings from Miami University!

As we look forward to the arrival of spring, I am excited to share information regarding an on-campus summer opportunity for your most talented students.

The Miami University Summer Scholars Program is an opportunity for academically talented rising high school juniors and seniors to spend two weeks on Miami's campus exploring a topic of their choice alongside our leading faculty and professional experts. The program offers students an insider's look at the college application process, with structured workshops focused on application essay writing, an introduction to financial aid and scholarships, and sessions on developing leadership skills. Participants who choose to apply to Miami will also receive priority consideration for Miami merit scholarships and the University's premier academic programs — the University Academic Scholars Program and the University Honors Program.

If you have students who would be interested in this opportunity, I hope you will encourage them to learn more about the Summer Scholars Program and apply. The University is pleased to offer a limited number of full scholarships for the Summer Scholars Program to academically talented students with financial need who apply and are accepted to the program. There is no application fee.

As part of the application process, counselors will need to submit a letter of recommendation, as well as the applicant's most current transcript and a copy of any available test score reports. We will gladly accept ACT, SAT, PreACT, and PSAT scores; official score reports are not required. If you are submitting application materials on behalf of a student in need of financial assistance, you must also submit verification of the student's eligibility for free or reduced school lunch. All application materials can be submitted online and need to be received by May 1, 2019.

If you have any questions, please email [summerscholars@MiamiOH.edu](mailto:summerscholars@MiamiOH.edu) or call 513-529-2531. More information regarding the program can be found online at [MiamiOH.edu/SummerScholars](http://MiamiOH.edu/SummerScholars).

Thank you for all you do to promote exceptional learning opportunities for your students. I hope to see your most talented rising juniors and seniors on campus this summer.

Sincerely,

Susan K. Schaurer

WORKING FOR WYOMING & THE WORLD

Hello!

We are excited to announce that the University of Wyoming now offers a Bachelor of Science degree in Construction Management. We expect to have our first graduating class in May 2022.

The discipline of Construction Management is experiencing amazing growth, especially in the Rocky Mountain West. Regionally, Construction Management jobs grew 169% between 2013-2018. Nationally, the forecast is for 45,000 new jobs in the field by 2026. Salaries are high.

What is Construction Management? It is the planning and oversight required to deliver projects on-time and on-budget. What do Construction Managers do? Budgeting, scheduling, site logistics including 3D modeling, safety planning, lots of communication and coordination with the owners, the local officials, and all the subcontractors on the job. You might work in an office, or in the field. You'll need to know a lot about decision-making. There is never a dull moment on a construction project.

Why come to UW? The world needs more Cowboys! We have an amazing campus, a world-class faculty, and small class sizes. It's a great place for a student to succeed. We expect our Construction Management program will be distinguished in a number of ways. We will focus on both vertical and horizontal construction. Vertical means buildings; horizontal means roads and infrastructure. Most schools focus on vertical, but we will also emphasize horizontal, to help serve Wyoming industries. Also 3D computer modeling & simulation is a cutting-edge activity in the industry and our curriculum will emphasize these skills.

We're also offering a Minor in Construction Management, for UW students in other majors. And we're offering a Certificate in Construction Management, for non-degree-seeking students.

Included in this packet is a poster announcing the Construction Management program to students. Please hang in a prominent position so students can learn about this exciting new program available to them at the University of Wyoming. If you'd like to learn more about the program, please visit <http://www.uwyo.edu/civil/> and feel free to contact us at [cae.info@uwyo.edu](mailto:cae.info@uwyo.edu).
