

## Book Review Crewel:

Every once in awhile, one of our student's will send a story in for the Raccoon Rambler. This book review was done by Broadcast Journalism student Madison Ramsey. In our reading society, we witness a lot of entertainment focusing on the prospect of time. From Doctor Who and the Whoovians to The Time Traveler's Wife, we simply cannot get enough of the one thing we don't get: Time. This breakout novel from Gennifer Albin is a perfect

fit for Time. Set in the dystopian world of Arras, *Crewel* centers on a young girl named Adelize, who is a Spinster and has the ability to alter and weave reality and time. We follow her journey through Arras, and her struggle in a controlling society where women don't matter. I was surprised by how utterly addicting *Crewel* is, with a complex yet so intriguing story line, and very well developed characters. I couldn't stop flipping the pages,

and before I knew it *Crewel* was finished, and I was off to the second book. I highly recommend *Crewel* to anyone in need of a book that deeply questions and accuses the element we all have that some are known to abuse called time. Packed with adventure and climatic events, along with the tragic lore of dystopian futures, *Crewel* is a magnificent read.

## V.A.S.E. Results:

This past Saturday, 46 FHS Art students competed at VASE – Visual Arts Scholastic Event. 36 works of art received a “4”, the highest rating at VASE. Congratulations to the following students as their artwork received a “4”:

- Achaibar, Neha
