

HHS Community Service Hours

Instructions for X2VOL Online Submission

All HHS Students who complete 100 community service volunteer hours by April 1st of their senior year will be awarded a Community Service Cord at graduation and noted in the graduation program. Hours must be obtained between the summer after 8th grade and April 1st of their Senior Year, and must be completed and submitted on their x2vol account by **April 1st** of Senior Year.

Community Service Hours must be submitted online to **X2VOL** by the student. A description of the service, along with the date, # of hours, service organization, and supervisor's name and contact information must be included. Hours will not be approved until they have been verified on x2vol by the volunteering supervisor. Any missing information may result in non-approved service hours.

- 1) Log on to www.x2VOL.com and complete the registration process. **You must use your FISD email address. Your password is your Student I.D.** Be sure to join a group (this will be your graduating class). NHS members will join two groups – their graduating class AND “NHS.”
- 2) Record your completed service hours. Remember to complete all information regarding the event at which you volunteered.
See the list below for HHS Approved Community Service Hours. Your supervisor's email address must be included so they may verify your hours on x2vol.
- 3) Your service hours will be reviewed by HHS Counseling Staff and will either be approved or not approved. If you volunteer for an event that is not approved, see Mrs. Prasifka for clarification---the issue might be as simple as needing a little more information. It's up to you to find out! The reviewing process might take several days.
- 4) Check Family Connection for other volunteer opportunities and volunteer!
