Bio & Education

Hello all! I am looking forward to teaching the Environmental Sciences to anyone that wants to learn a little more about the world around them. I am a native Tennessean, and graduated from Middle Tennessee State University some time ago. I have just started on my Master's Degree in Geoscience-Environmental Science at Mississippi State University, and hope to be done in the summer of 2019. I am an AP Grader for Environmental Science, and am finishing my certification in the Texas Master Naturalist Program.

Course Taught

- 🦉 AP Environmental Science
- 🦉 Environmental Science

Tutorials

Tutorials will be any and every Tues-Thurs before or after school. Hit me up on the Remind 101 if you need to see me any other time!

Activities/Hobbies

- 🦉 Texas Master Naturalist
- 🦉 Prairie mitigation/restoration (and being outdoors, in general)
- 🦉 Living life with my wife, Leah and my dog, Lily

College Sorority/Fraternity

Middle Tennessee State Soccer Club

We Are... **HERITAGE**
