ACADEMIC ETHICS & PLAGIARISM FISD expects all students to maintain the highest degree of academic ethics. This requires putting the utmost effort into all class work and assignments and avoiding the ethical pitfalls of plagiarism and cheating.

Plagiarism and Cheating: Plagiarism and cheating interfere with the assessment and

feedback process that is necessary in order to promote academic growth. Education is based on learning specific skills, forming lifelong work habits, and developing mature coping skills according to each student's unique abilities. Stress sometimes propels students to make unethical choices. Students are expected to produce their own work except on projects designated by the teacher as cooperative efforts. Teachers will indicate which assignments are to be cooperative efforts and will establish guidelines for the use of such aids as calculators, computers, word processors and published study guides. If a student is in doubt about the ethical standards applicable to a particular situation, the student is responsible for clarifying the matter with the teacher. Remember, each student is responsible for securing his/her own work.

Plagiarism and cheating include, but are not limited to:

- Submitting material written by someone else or rephrasing the ideas of another without giving the author's name or source.
- Presenting the work of tutors, parents, siblings, or friends as your own.
- Submitting papers, or portions of papers, from the Internet written by someone else.
- Exchanging assignments with other students, either handwritten or computer generated, whether you believe they will be copied or not.
- Using any form of memory aid during tests or quizzes without the expressed permission of the instructor.
- Using a computer or other means to translate an assignment from one language into another language and submitting it as an original work.
- Giving or receiving answers during tests or quizzes.
- Taking credit for group work when you have not contributed an equal or appropriate share toward the result.
- Accessing a test or quiz for determining the questions in advance of its administration.
- Using summaries/commentaries (Cliff notes, Spark Notes, etc.) in lieu of reading the assigned materials.

Consequences

The teacher will notify the parent and Assistant Principal of any student who is caught plagiarizing or cheating, and the offense will be documented in Eschool. When work is plagiarized or copied from another student, one or both of the students may be penalized.

In addition, the following consequences **must** be assigned for cheating/plagiarism on **major** assignments (60% category)*:

- **1st Offense:** Students will receive a zero on the major assignment/assessment . The student will be assigned an alternate assignment/assessment to be made up outside of school hours. The maximum grade the student can receive on the alternate assignment/assessment will be a 70%. Retest policy will not apply.
- **2nd Offense (in any class):** Student receives a zero on the major assignment/assessment, and the retest policy will not apply.
