

Veterinary Medical Applications covers topics relating to veterinary practices, including both large & small animal species.

To prepare for careers in the field of Animal science, students acquire knowledge & skills related to animal systems and the workplace.

To prepare for success, students need opportunities to learn, reinforce, apply and transfer knowledge and skills and technologies in a variety of settings.

Veterinary Medical Applications (Vet1)

1 credit

11th-12th grade

Topics covered in this course include, but are not limited to, veterinary practices as they relate to both large and small animal species. Required pre-requisite classes include Survey plus 1 more credit from the Pathway.

FISD Endorsement Pathway:

9th: Survey of Agriculture

10th: Small Animal Management, Equine Science, Livestock Production

11th: Vet Med Apps

12th: Practicum in Vet Med

Vet 2 students interview for a clinic internship during the summer months. Students work side by side with doctors & technicians learning real world skills, making valuable connections.

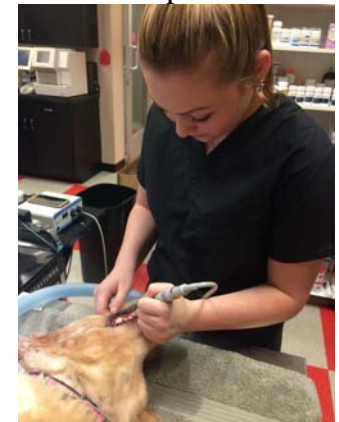

Practicum in Veterinary Medical Applications (Vet II)

2 credits

12th grade

The practicum course is a double blocked, unpaid capstone experience designed to give students supervised practical application of knowledge and skills. Practicum experiences occur in appropriate location of an animal hospital.

After completion of 300 clinical hours, students may apply to take their CVA test through TVMA. This is a Certified Veterinary Assistant Certification recognized by the state of Texas.

****Students MUST provide their own transportation to and from off-campus interning site.****
