Key Question 1 Problem Statements:

Differentiated Instruction and Assessment
Problem Statement 1: While we have some wonderful experiences throughout the year that place the learning in student's hands, they are isolated events. Daily instruction is primarily teacher designed, led, and monitored for all students resulting in a lack of student engagement, ownership, and differentiation. Root Cause: There is a lack of understanding and clarity on how to collaboratively design and implement learning experiences that empower student ownership at all levels.
